## Professional Summary

Experienced Dell Boomi Integration Developer with 2 years of expertise in designing and deploying cloud and on-premise integration solutions. Skilled in API management, Boomi flow, and EDI integrations, ensuring seamless data synchronization and operational efficiency. Proficient in error handling, complex data mapping, and collaborating within Agile frameworks to deliver high-quality, scalable solutions.

## Experience

### AVASOFT - Boomi Integration Developer

#### Leading Insurance company project

Nov 2022 – Oct 2023

- Integrated a cloud-based claims management system with an on-premise underwriting platform. This ensured real-time data synchronization and optimized operational workflows across systems.
- Developed an API for converting DOCX and PNG files to PDF, aligning with the Boomi tool. This improved document handling and ensured seamless data mapping for insurance processes.
- Collaborated with front-end and back-end teams to reduce deployment rollout times by 15%. This streamlined the release process, ensuring faster updates and improved system performance.
- Enhanced data mapping using Boomi automation, increasing processing efficiency by 20%. This reduced manual intervention and sped up claims processing workflows for improved turnaround time.

#### Leading building materials company project

### AVASOFT - Boomi Integration Developer

Mar 2022 – Nov 2022

- Migrated legacy ETL workflows and Java-based applications to Boomi, ensuring seamless data synchronization across ERP, CRM, and SCM.
- Integrated Boomi with Okta for secure user authentication and access control, enhancing data security and compliance.
- Implemented parallel processing and batching techniques, optimizing bulk order processing and inventory updates, improving performance by 30%.
- Configured Boomi's error-handling framework to generate real-time alerts for order discrepancies, reducing system downtime by 25%.
- Developed and enforced best practices for Boomi deployments, creating detailed technical documentation and supporting end-user training for smooth rollouts.

### AVASOFT - Trainee Engineer

Dec 2021 – Feb 2022

- Acquired practical experience in Dell Boomi, focusing on data mapping, API development, and designing integration flows.
- Developed dynamic front-end applications with HTML, CSS, and React.js, while ensuring efficient back-end operations using Node.js and AWS.

## skills

### Integration & Middleware

- Boomi Flow & API Management Data
- Management (MDM) Error
- Handling & Troubleshooting

### Scripting & Programming

- HTML, CSS
- Node JS
- JavaScript

### Standards & Protocols

- Communicatio protocols
- RESTful APIs, JSON, XML

### Databases

- SQL
- Oracle SQL

### Soft Skills

- Client Interaction
- Cross-Functional Team Collaboration
- Agile Methodology

## Education

### BE- Mechanical Engineering

KPR Institute Of Engineering And Technology

Apr 2018 - May 2022

CGPA : 8
